## **New Generation iPods Can Now Be Protected by Tough, Transparent BodyGuardz**

*NLU Products' Scratch-Proof, Transparent Skins Now Protect New iPod Touch, iPod Nano 3G, 4GB and 8GB "Fatty", and iPod Classic 160GB Models*

**DRAPER, UT – September 05, 2007** – NLU Products, the developer of scratch-proof, transparent skins for mobile devices under the ScreenGuardz and BodyGuardz brand names, today announced the release of a new line of BodyGuardz products for the new generation of Apple iPods, including the iPod Touch, iPod Nano 3G, 4GB and 8GB “Fatty”, and the iPod Classic 160GB models. The new iPod protectors, which are custom-designed and precision-cut specifically for the three new models, are made of a clear film that covers the body of the devices, providing scratch protection from outside elements.

“The new iPods have added some exciting features to the line, while maintaining their thin, highly portable profile,” said Dain Hodson, Vice President of NLU Products. “Our BodyGuardz provide the perfect protection so users can enjoy their new iPods in all kinds of on-the-go situations.”

The BodyGuardz line of products for Apple iPods includes, in addition to the three new models, protection for the iPod Classic 80G, iPod 5G (30GB), iPod 5G (60GB-80GB), iPod Nano 1G, iPod Nano 2G, and the iPod Shuffle. BodyGuardz protectors are made from the same material that is used to protect the front of automobiles from stones and other abrasive elements. The protectors are easy to apply and are optically clear; the protection remains transparent without distorting the iPod’s dimension or design. Each BodyGuardz for iPod package includes two complete BodyGuardz full body wraps which protect the entire outside of the devices.

NLU Products, also the developers of popular ScreenGuardz screen protectors, creates custom ScreenGuardz protectors for over 1,000 different varieties and brands of phones, PDAs, computers, media players, gaming devices, and cameras. Current top-selling BodyGuardz include protectors for the Apple iPhone, MacBook Pro, and the Cingular 8525

-more-

BodyGuardz adhere using an adhesive that holds the protector in place, but can be removed when needed. BodyGuardz will not come off unless the user pulls them off. Included in each package are step-by-step instructions on how to install the protector, and how-to videos are available on the BodyGuardz website to assist users with installation.

BodyGuardz protectors for the iPod Touch, iPod Nano 3G, 4GB and 8GB “Fatty”, and iPod Classic 160GB models are priced at \$24.95, and usually ship in 24 hours. iPod BodyGuardz, as well as all other BodyGuardz products, can be purchased at [www.bodyguardz.com](http://www.bodyguardz.com).

***About NLU Products***

*NLU Products, L.L.C. was founded in 2002 and is committed to offering top quality products and services at a reasonable price. The company prides itself in delivering products and providing service that customers notice is a step above the rest. Kirk Feller, President of NLU Products, has a simple philosophy. Listen to customers, provide top quality protectors, fulfill orders quickly and efficiently, and do it all at a price everyone can afford.
